The disclosure is objected to because of the following informalities: There is no reference to figures 15A-15F in the Brief Description of the Drawings.

Appropriate correction is required.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by Lin.

Figures 2 and 3 show structure as claimed, including a plurality of wheeled legs 4, a supporting body 12 rotatably mounted thereon, a back 3,31 rotatably secured to the supporting body, and a seat 2,21 rotatably mounted to the supporting body via a first axis 111, which is adjacent the second axis 141 of the supporting body.

Claims 11,14,16-18,20-23, and 31-34 are allowed.

Applicant's arguments with respect to claim 26 have been considered but are most in view of the new ground(s) of rejection.
